

A278PLUSPI'S SURVEY ABOUT TETR.IO QP2 MODS

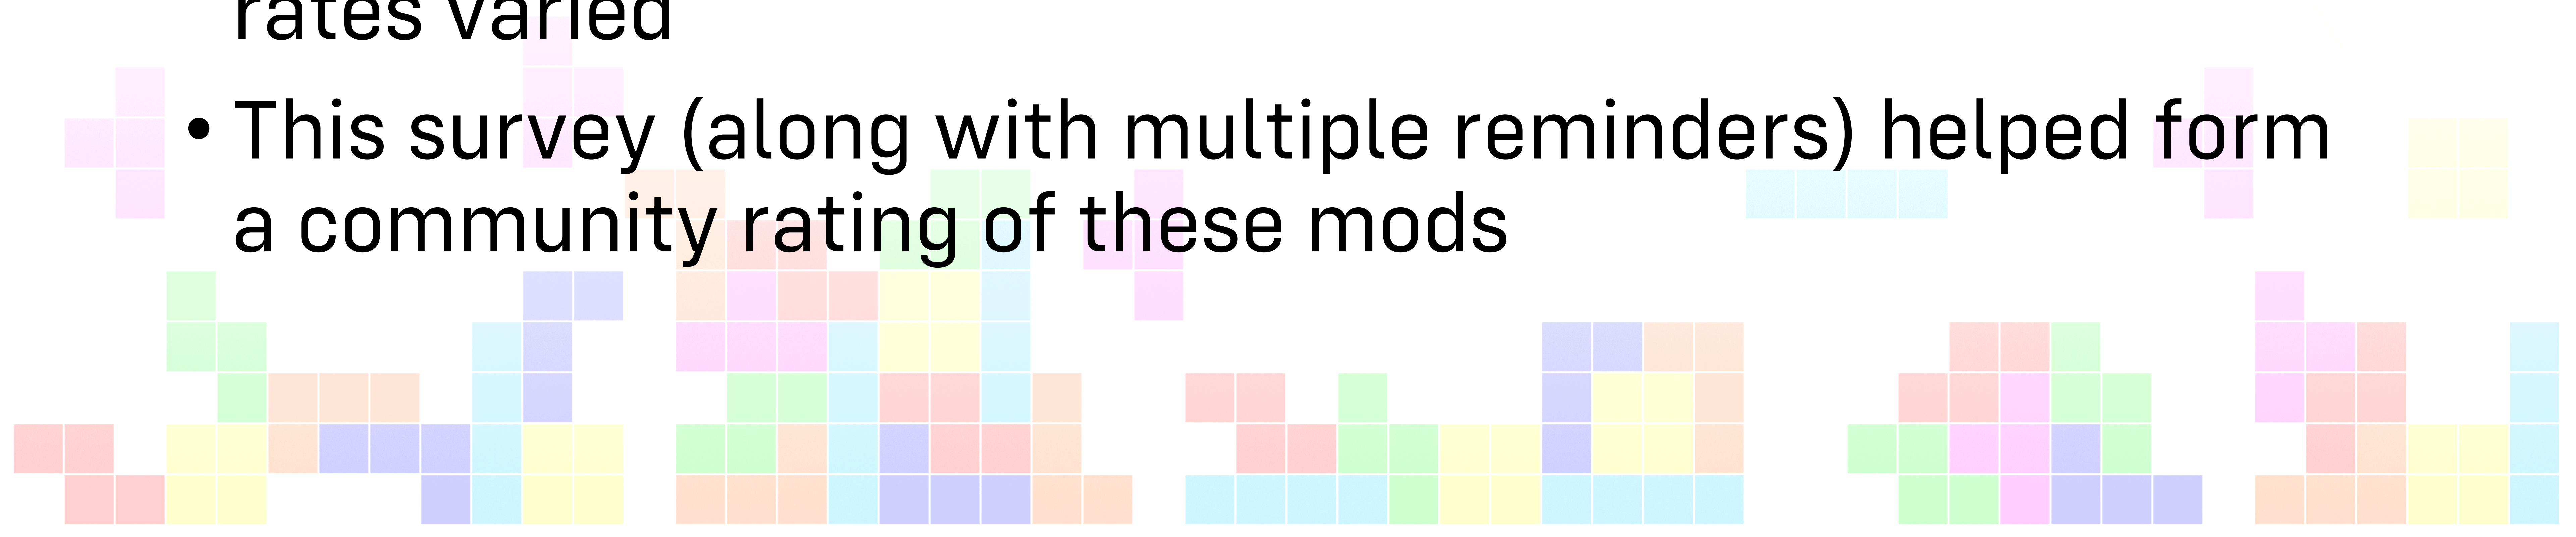

Survey Dates: 12/4/2025 – 1/4/2026

Response Count: 32

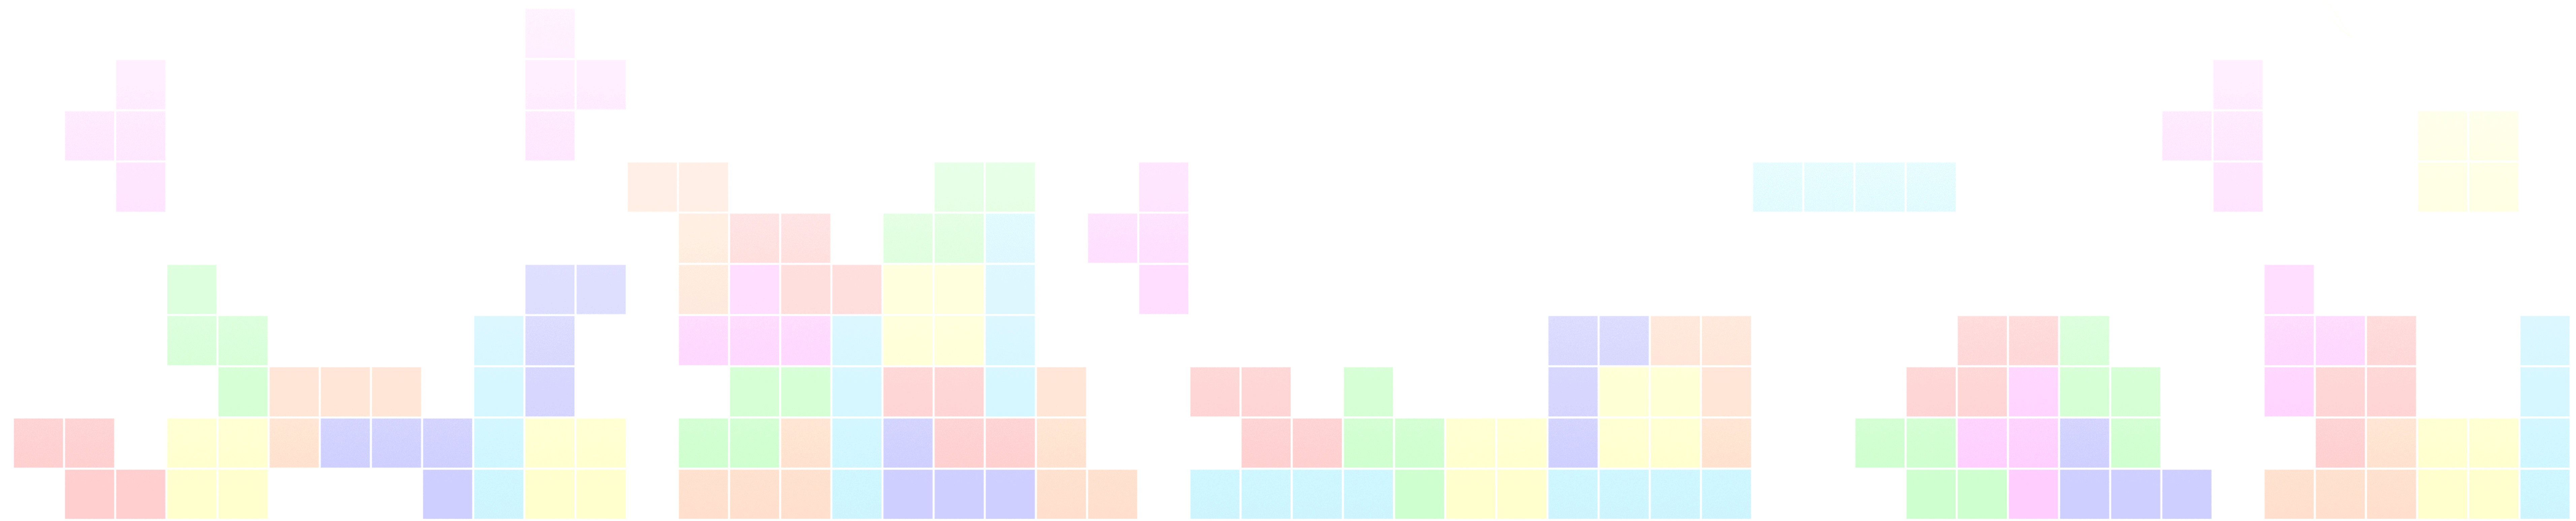

WHAT'S THE POINT OF THIS SURVEY?

- There are many varied opinions about different QP2 mods, but these mods (or mod sets) aren't assigned a community rating
- I also conducted more polls on mod likes/dislikes, but they don't provide a complete picture, so poll response rates varied
- This survey (along with multiple reminders) helped form a community rating of these mods

PLEASE NOTE...

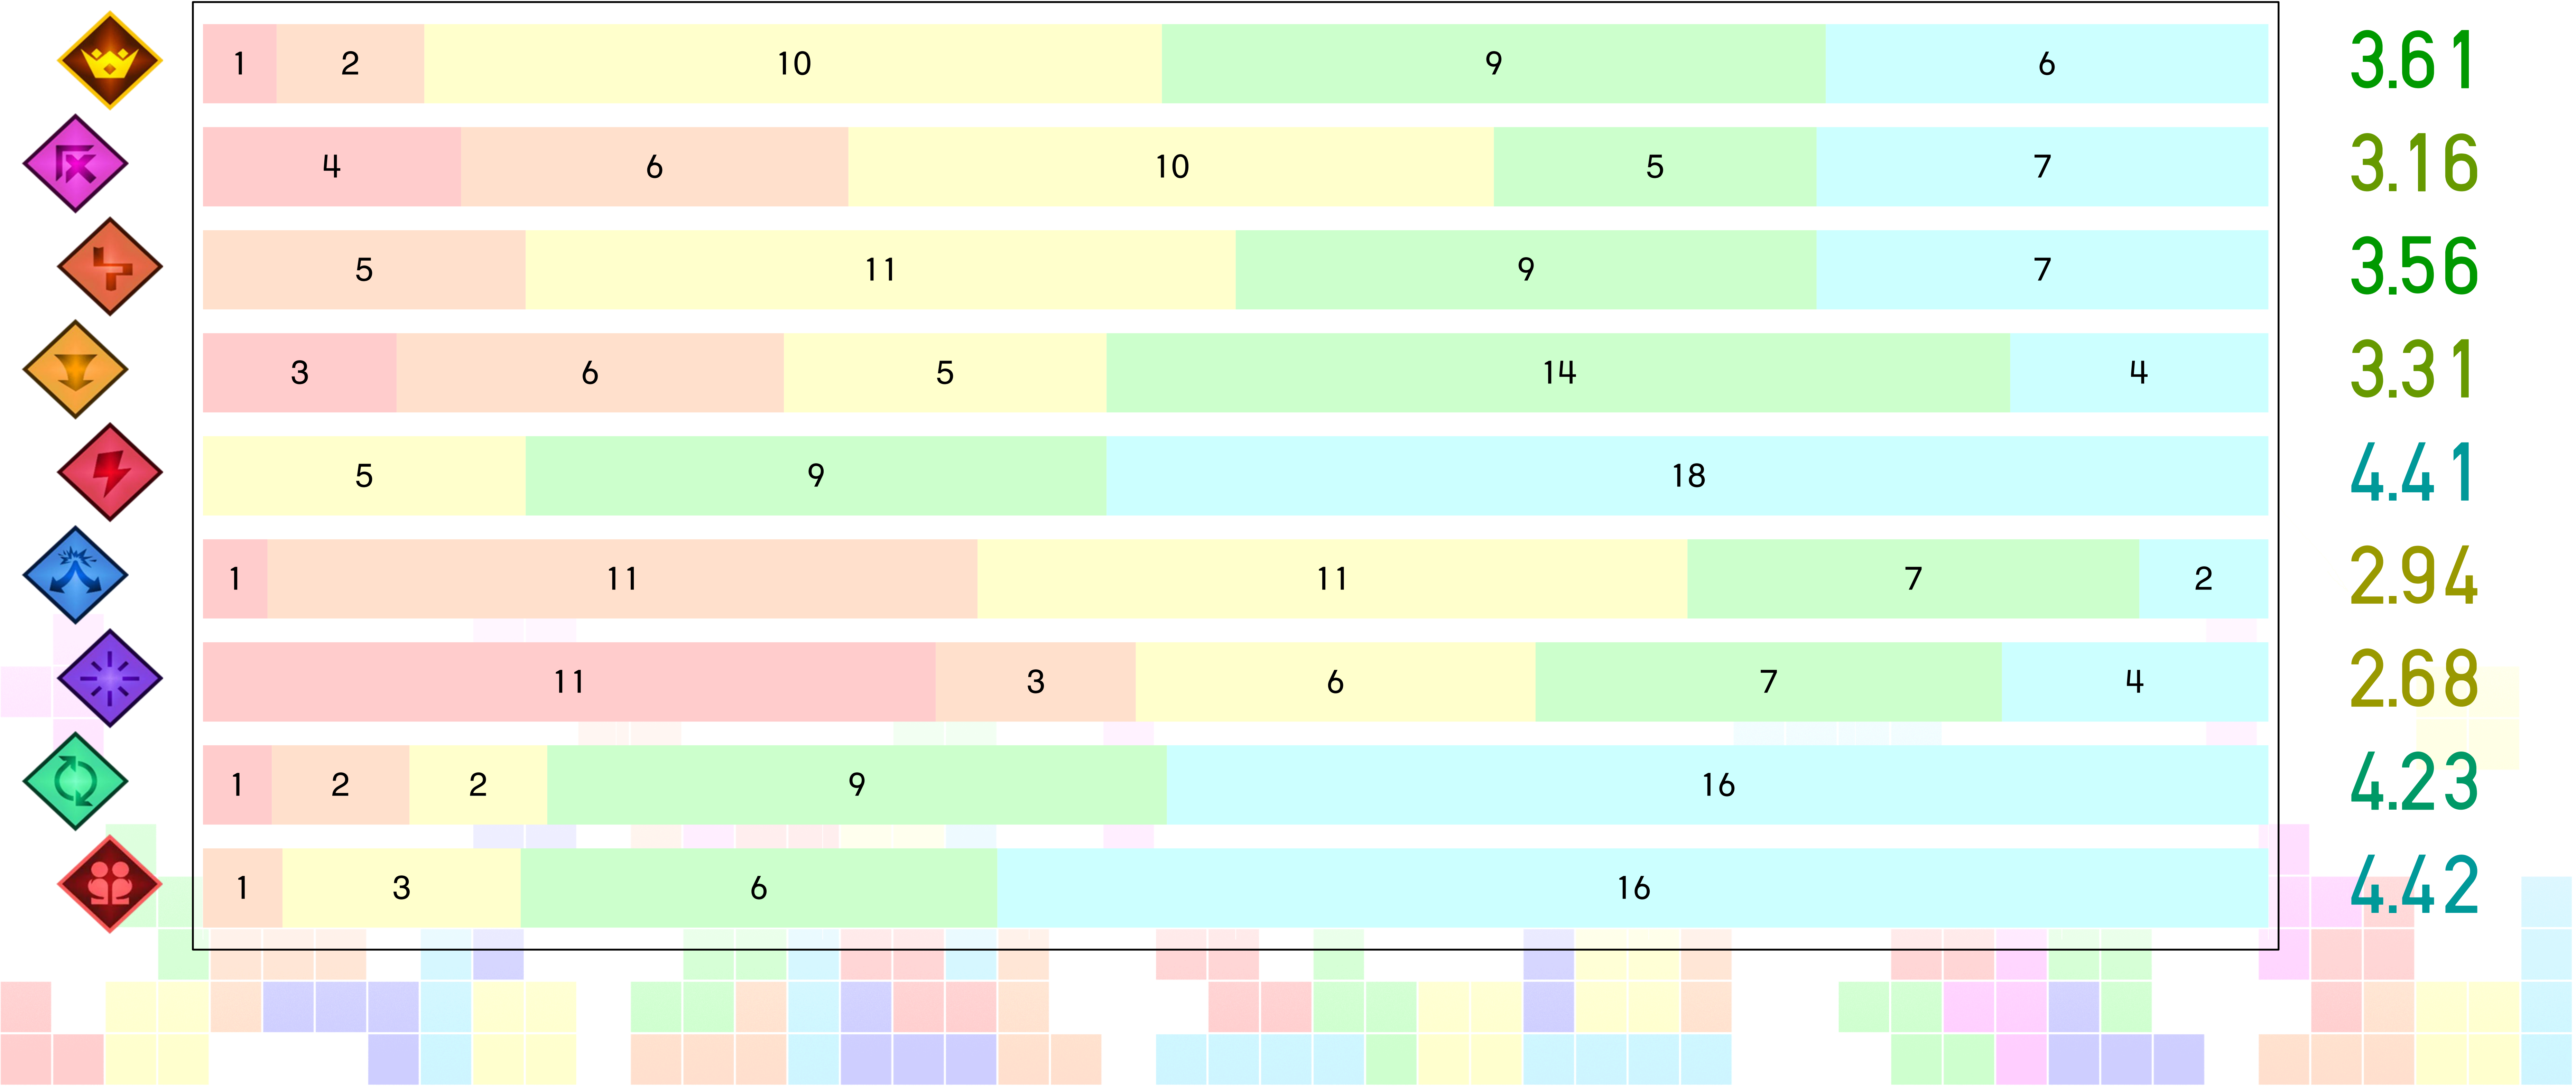

- Because the survey is voluntary, the margin of error may be up to 30% (why large?)
 - Based on **32** responses, there are about **9.5M** active players
 - We don't know how many players have played Quick Play 2 within the past month

TWO MOD COMBOS

- About 30%-35% of the respondents play mod combos other than the named ones

- Most liked (unofficial) two-mod combos include:

- **Volatile All-Spin: 4.0**
- **Messy Volatile: 3.9**
- **Messy Gravity: 3.8**

Good to know:

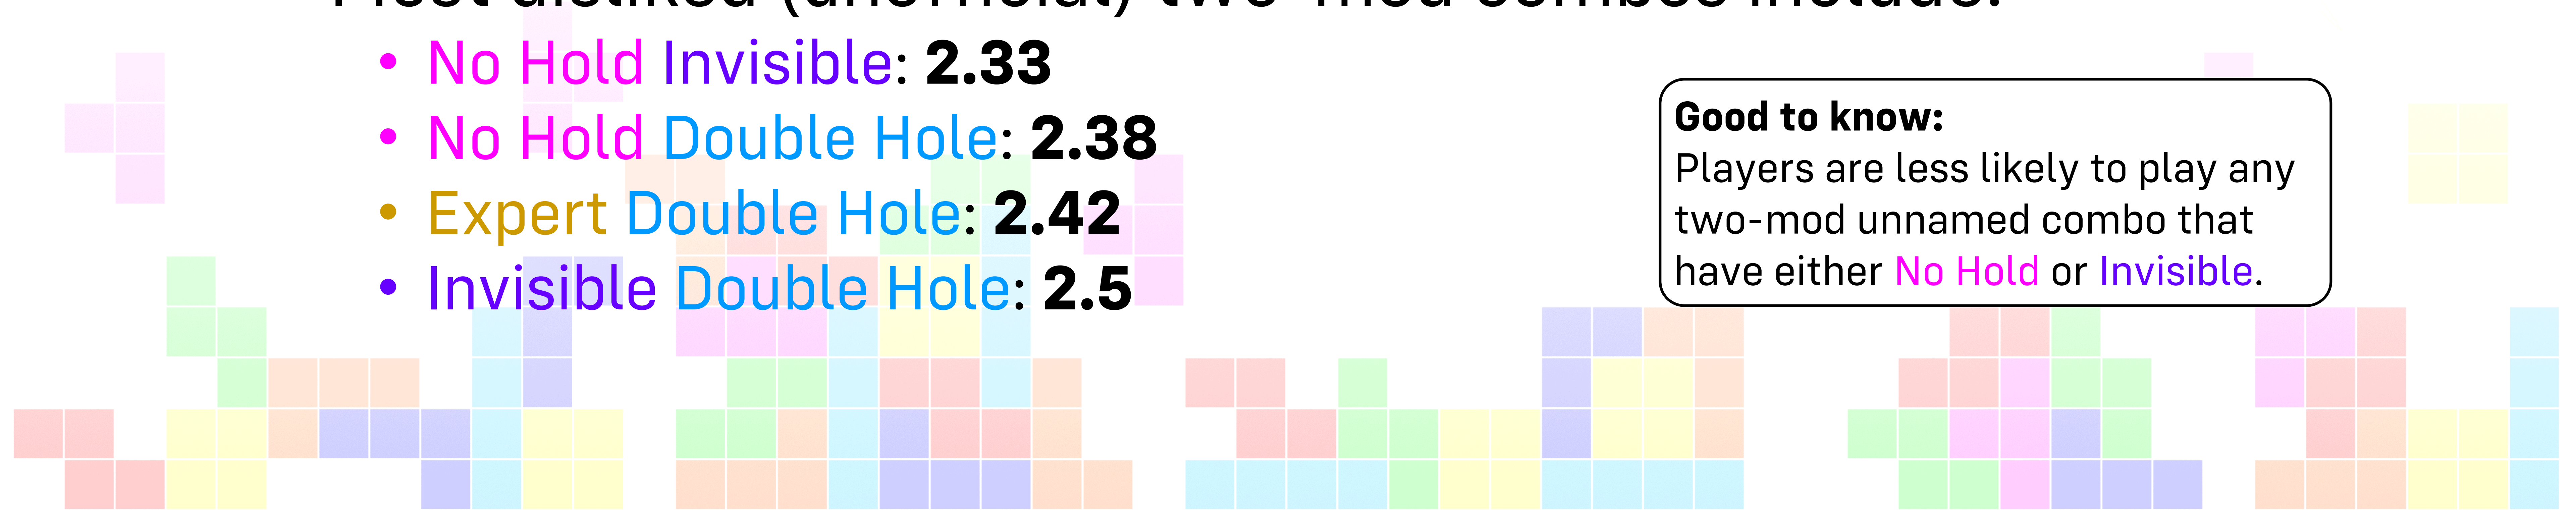

Many players like to play mod combos with certain mods like **Volatile** and **All-Spin**.

- Most disliked (unofficial) two-mod combos include:

- **No Hold Invisible: 2.33**
- **No Hold Double Hole: 2.38**
- **Expert Double Hole: 2.42**
- **Invisible Double Hole: 2.5**

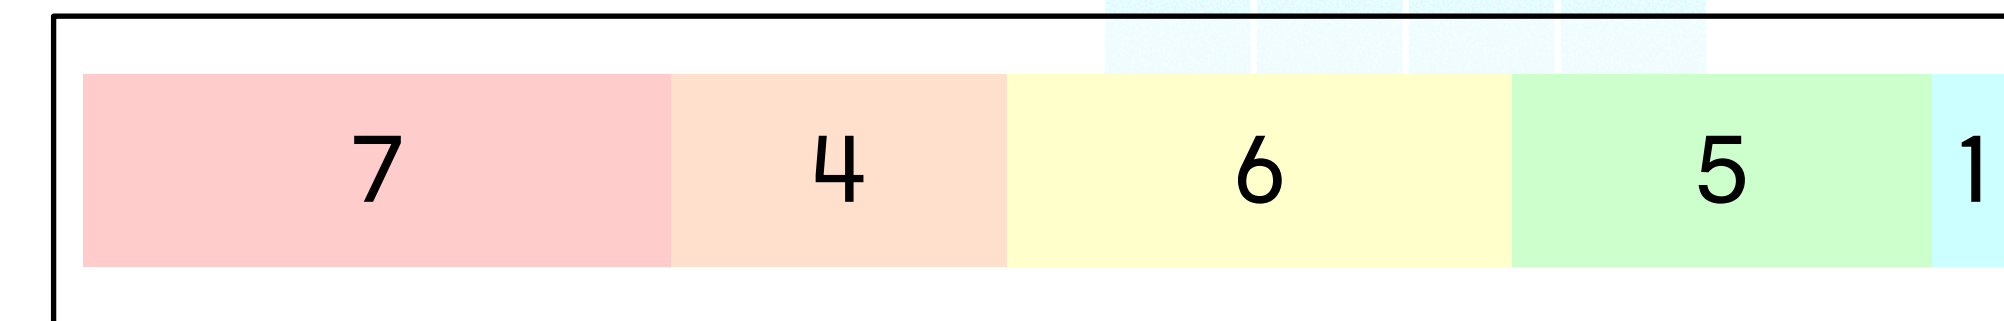

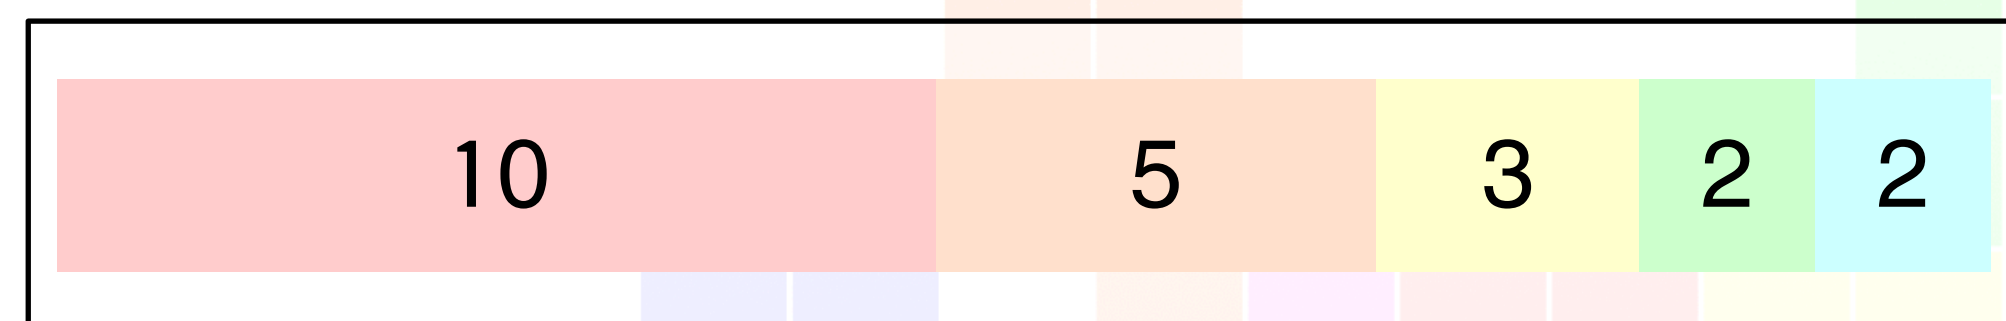

Good to know:

Players are less likely to play any two-mod unnamed combo that have either **No Hold** or **Invisible**.

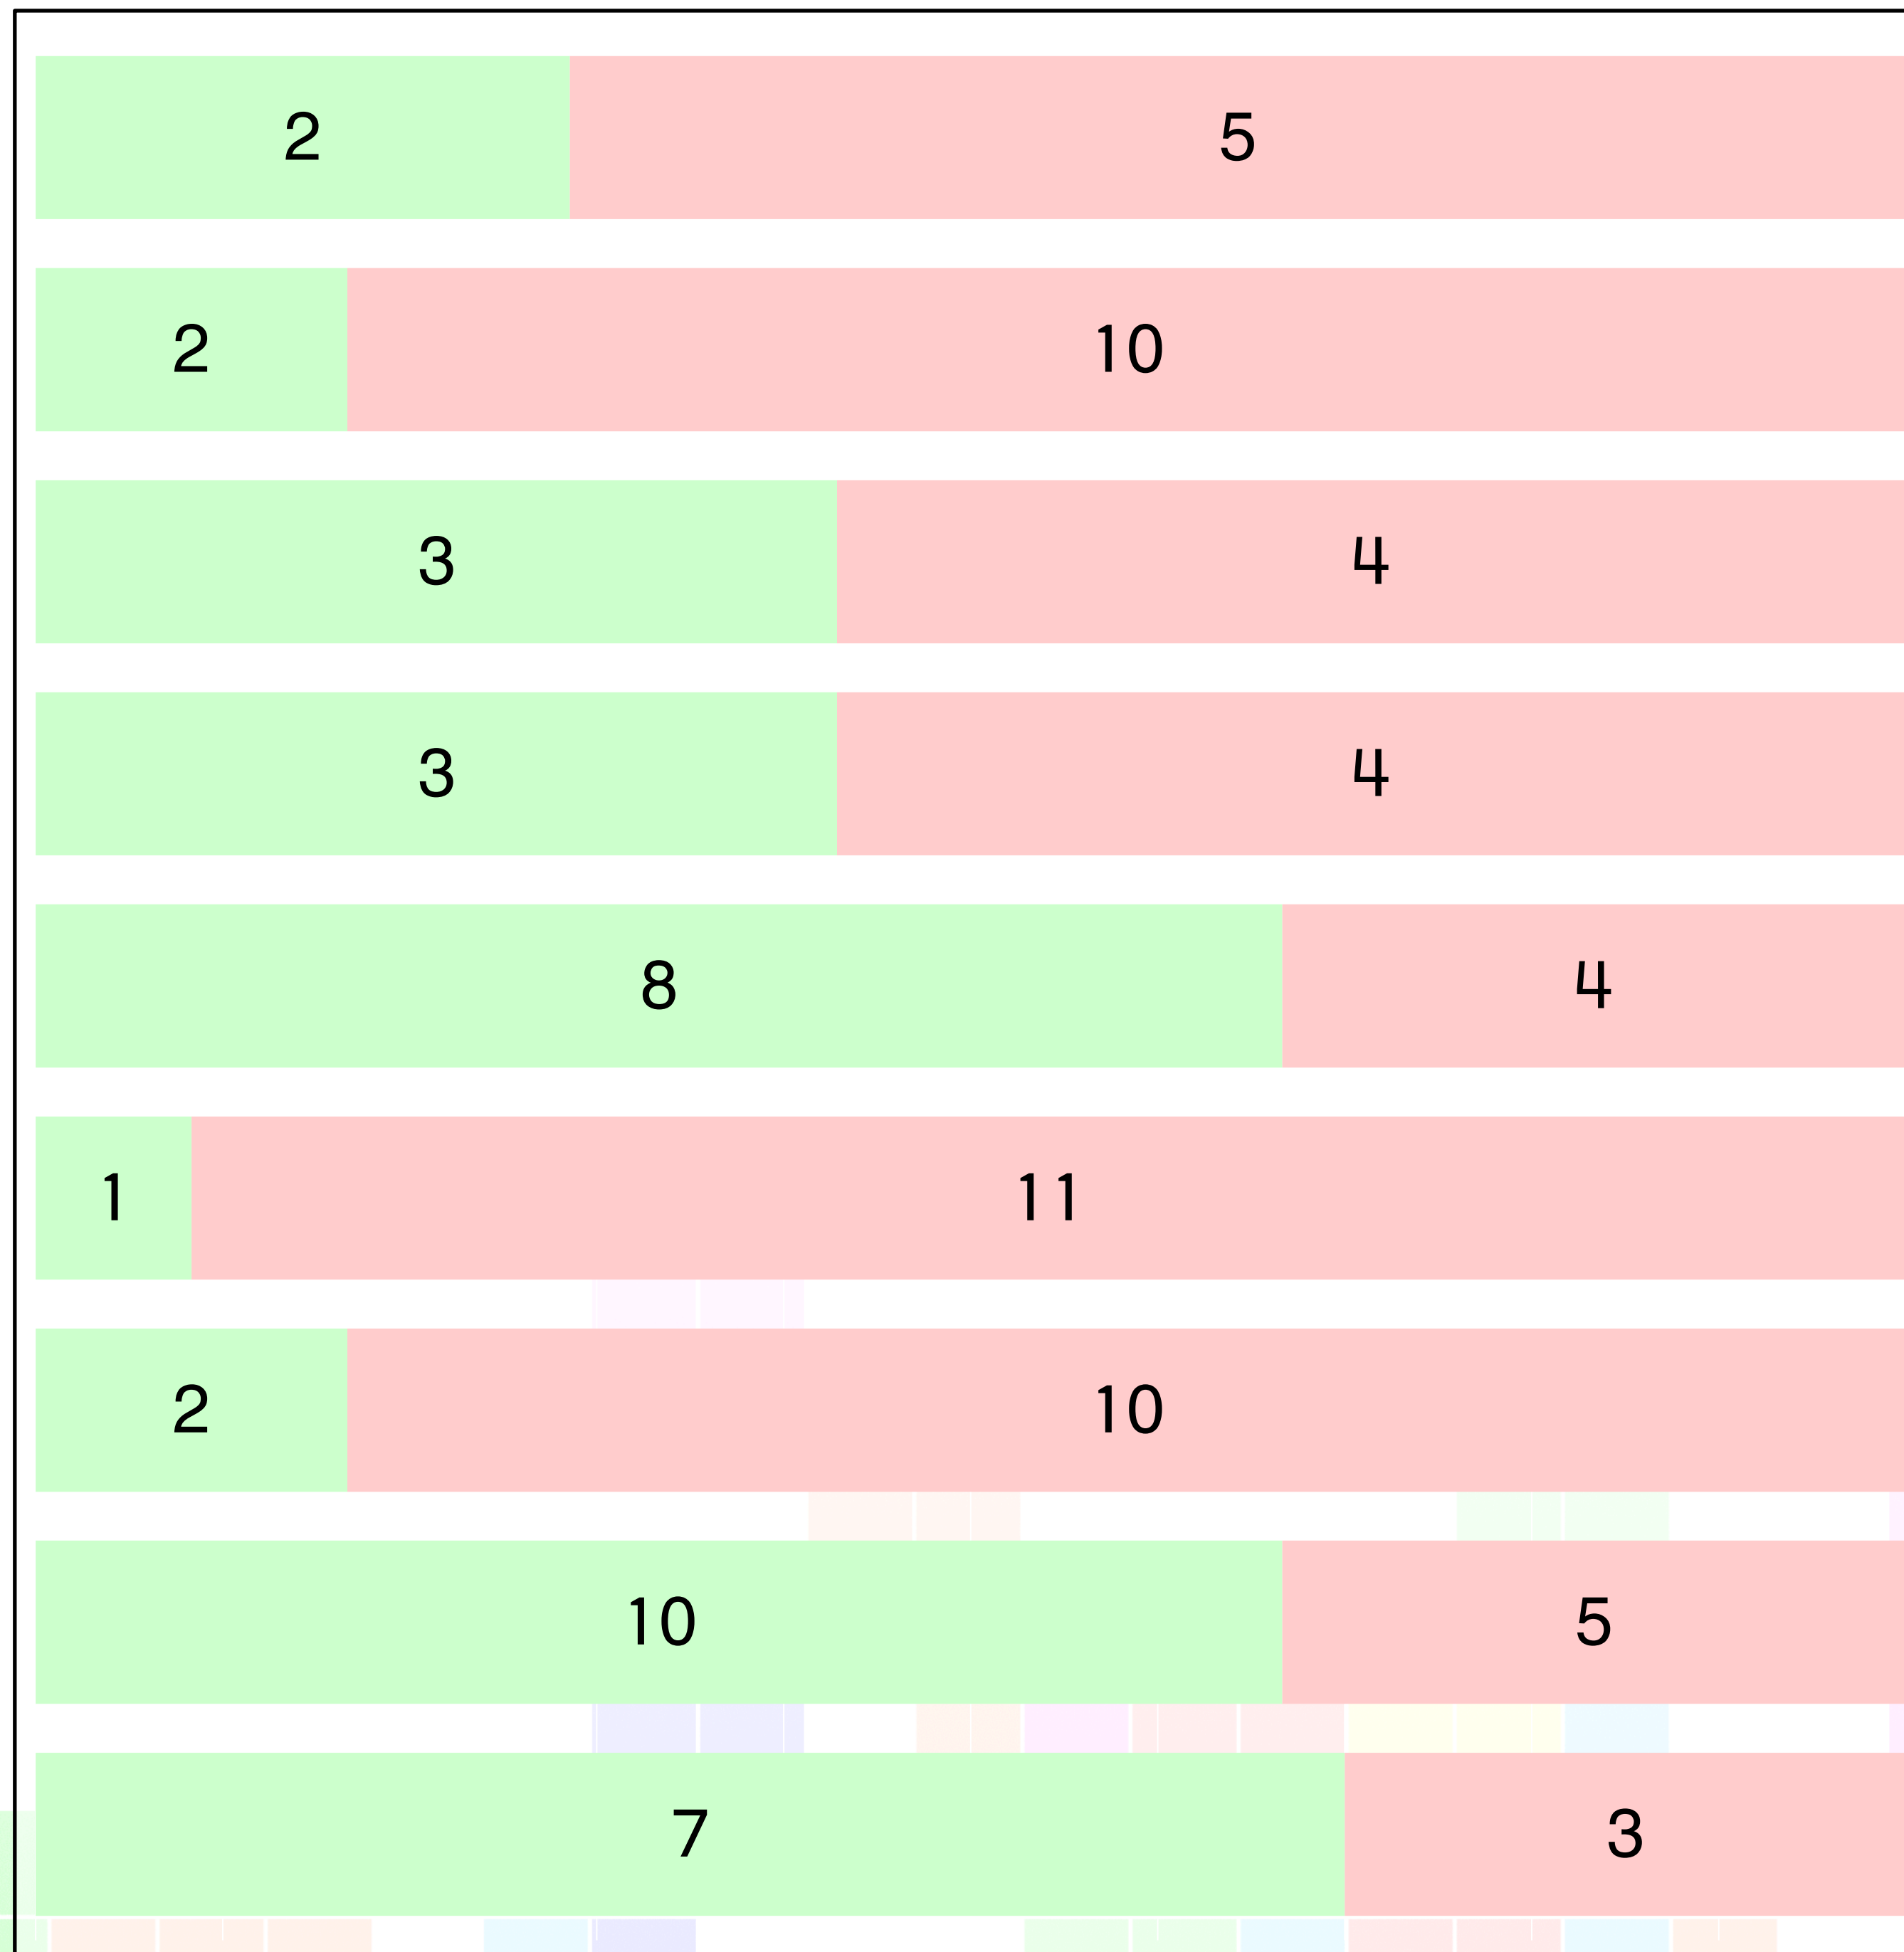

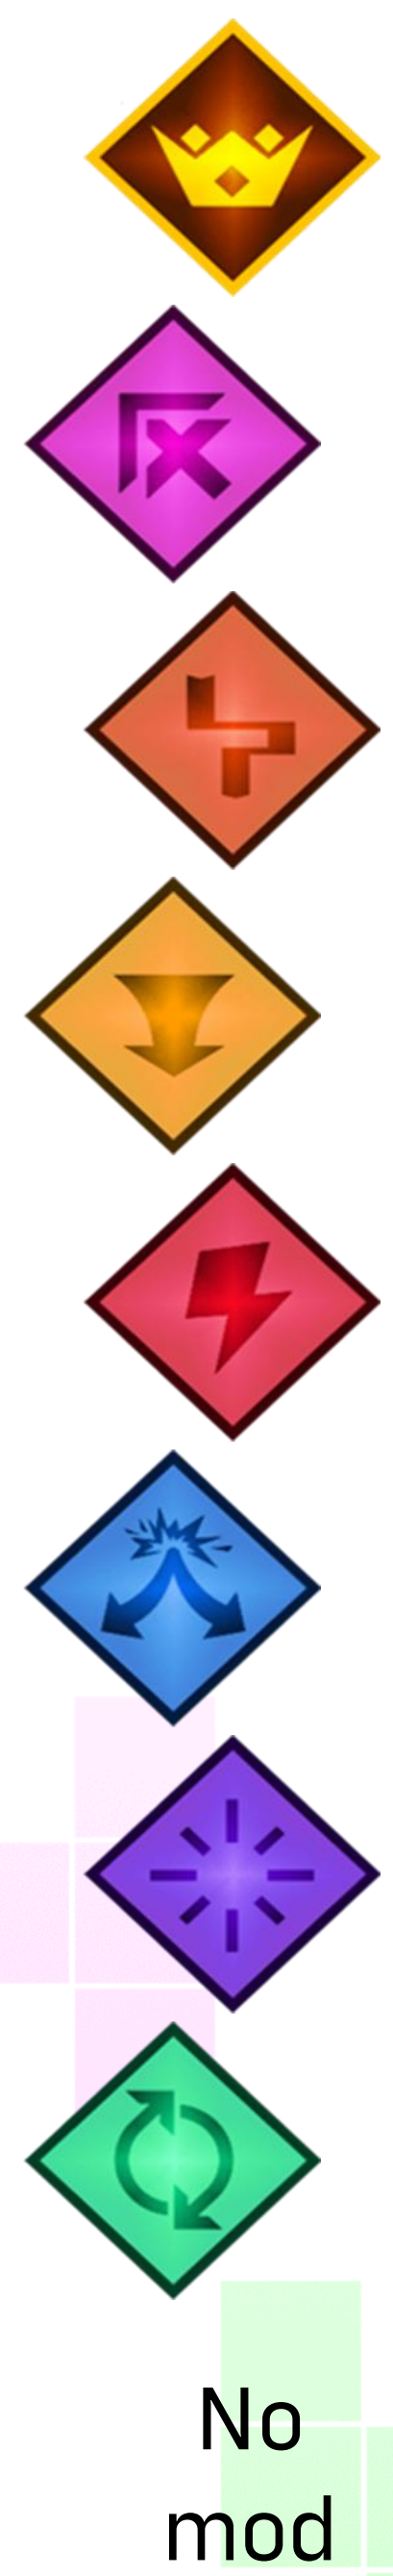

SWAMP WATER

Many players do not find "Swamp Water" enjoyable although they find the "Lite" variant more tolerable. For those that play "Swamp Water Lite", they usually remove either "No Hold", "Invisible", or "Expert"
